

Central Pa Youth Ministries

Did you know that a majority of Christian adults trace their spiritual walk with Christ to a camp or a retreat? There is something very moving about getting away from our normal surroundings and hearing the Gospel from a voice or through a program that is not the same old stuff. Generation after generation have responded to Christ this way and real spiritual growth began.

This is why we do 3 camps every year. Winter Camp has just concluded. Pictured on this page are some images of camp.

One counselor told me the following story. After some small group time on Saturday night, he told his group of middle school boys that he would like to close their time together in prayer. One little guy said he would like to pray, ok, was the counselors response, "but, what would you like to pray about?". His answer, "I want to ask God to forgive us for the sins we committed that day." Then this little kid asked each one in the group what sin they had committed during the day that they needed to confess and ask forgiveness for. Our group topic that night had been the death of Christ on the Cross for our sins. I think this little guy got it!

Another counselor shared how after she had shared with her small group how she had become a Christian, two gals in her group started to cry and said that they too wanted to experience the love and forgiveness of Christ's death. This scene was repeated many times throughout the weekend. God showed up and we praise Him for bring many teens into His Kingdom.
