

Central Pa Youth Ministries

Pictured here are some scenes from various activities Central Pa Youth Ministries does. When we are asked, "what is the main thing you do with teens?" The answer is simple, "we work very hard at building relationships with the teens God brings into our lives."

Today we are hearing a lot about how lonely this generation and people in general are. Relationships have become very shallow and our circle of friends is shrinking. Kids set alone in the cafeteria with their ear phones on doing nothing but starring at a iPhone or a laptop. If you tried to start up a conversation with one of them, they would probably tell you to get loss. They don't know how to have a relationship with another person other than on Facebook or some other social medium. They are lonely and it is into this world the 10 missionaries of Central Pa Youth Ministries go every day to build a relationship with them so we can tell them about the greatest relationship in the world.
